

Example of an Advancing Learning for ALL Procedure

Proficiency or Best Effort vs. Completion using The Most Difficult 5 Strategy

Choice is one of the highest motivators for us ALL. Using this procedure, the teacher chooses 3-5 tasks for the student to complete showing proficiency or best effort depending on the individual needs of the student. If the student shows proficiency or follows through on completing the task displaying best effort, he or she can then move on to a Moving Forward Menu. A Moving Forward Menu has a few pre-selected, preferred activities that the student can then move on to. The menu and number of choices can be modified to motivate individual students.
